The route traverses remote hill areas so ensure that you have sufficient, tubes, spares and expertise to repair bike if necessary. “Bonk rations” should be carried in case of delays. Low gears are an asset. Take care on steep ascents and descents which can be twisty, greasy and have free roaming livestock and their offerings..
You may wish to fit mudguards as Welsh farm roads can be wet & muddy.

R=right; L=left; T= T junction; sp=signpost; @=at; X= cross roads; SO= straight on; place name in **bold** type---you go through named place; **INFO**---you must write answer to question in brevet card.
